

THE CIDER INSTITUTE OF NORTH AMERICA

is a non-profit organization made up of passionate cider industry professionals and educators with a mission to create a quality-driven and sustainable cider industry through education and research.

Through a collaboration between the cider industry and academic institutions, the Cider Institute provides the only certification for cider production in the world. Steered by the industry for the industry, CINA connects students with the world's leading authorities in cider production and research to grow the cider industry through expertise and experience.

ABOUT CIDER INSTITUTE COURSES The Cider Institute partners with Cornell University, Oregon State University, Washington State University and Brock University to deliver high-quality, hands-on trainings.

CIDER & PERRY PRODUCTION - A FOUNDATION* Participants of this 5-day course, run in association with the Cider & Perry Academy (CPAC), will gain an understanding of cider and perry and acquire the key skills and knowledge necessary to make quality products. From the fundamentals of cider making to the history and traditions behind the modern cider and perry industry, this course involves hands-on practical lab work, lectures, workshop and cider tastings. Upon course and exam completion, students will receive an industry-recognized Certificate from the Cider Institute of North America.
